## Train with Truck Marketing Institute

Graduates of TMI are confident in their product knowledge and ability to meet the requirements of the toughest applications and the most demanding fleet buyers.

Since 1964 more than 61,000 graduates of TMI have been trained in truck selection and application: The meaning of the terminology, the intricacies of the product and how to interpret product specifications.

## The Goal: Sales Professionals

TMI is a great way to expand and improve your sales force. Get new truck personnel up-and-running in a short time, and provide continuation training for truck specialists who need to stay ahead in a changing world.

## Gain Peterbilt Product Knowledge

A part of the Precision Truck Training course focus is truck fundamentals and procedures for truck selection and application. Another part is learning and applying specific knowledge gained using factory product data sources.

## The "Classroom" Comes to the Student

TMI students make the best use of their time. Correspondence courses allow them to stay on the job while completing flexible, self-paced training using the printed course textbook, or the optional "eBook" version.

The 10-lesson Course III for heavy-duty models can be completed in as little as 70 hours of study time. An assigned TMI instructor tutors each student as a "class of one," and critiques the achievement test required for each of the ten lessons. Test scores are often returned within one business day after the test arrives at TMI by fax or prepaid envelopes provided. The make specialized courses include everything except the necessary factory data reference.

## Enrollments, Tuition and Reimbursement

Enroll employees any time throughout the year. TMI courses are a vital investment in truck sales knowledge and the costs are reasonable—with no travel time or added expense. And when your employees finish Course III or Course IV in nine months or less with an average score of 95%, ***Peterbilt will reimburse you half of the cost.***

Business sponsored enrollments are treated as company property. If a course is not completed for *any* reason the value of the "unused" lessons can be credited to enroll another employee.

***Your Satisfaction Assured:*** Get a full refund if you are not satisfied. Simply return unused course materials within 30 days and we will cancel the invoice.

## TMI Course Information January 1, 2012

### Precision Truck Training Course III—Heavy-Duty Models

- Lesson 1 Productivity and Cost Relationships. Introduction to the Metric System.
- Lesson 2 Model Types, Terms, Weight Ratings, Laws and Loads.
- Lesson 3 Truck Weight Distribution and Optimum Payload Capacity.
- Lesson 4 Tractor Trailer Weight Distribution and Maximum Load Capacity.
- Lesson 5 Chassis Components: Frame, Springs, Axles, Wheels, Tires, GAWR Rating System.
- Lesson 6 Vehicle Performance: Torque and Power, Performance Losses, Making a Performance Analysis—Reserve Power and Gradeability.

- Lesson 10 The Support Systems: Electrical, Cooling, Exhaust, Emissions, Noise Control, Power Take-Offs, The Driver Environment.
- Appendix Tables & Data: Weights & Measures, Performance Formulas, Swing Radius, Weight Distribution, Tire Capacities, Grade Resistance, Air Resistance, Electrical Loads.
- Index Subjects and Terms

## A Full Line of Precision Truck Training

We offer courses to cover the entire truck spectrum. Each stands on its own—they don't have to be taken in sequence.

**COURSE I** Course I is an ideal starter course for Chevrolet or GMC light truck sales personnel. Five lessons make specific versions provide technical training; product exercises use factory data.

**COURSE II** **Medium Truck Basics.** Excellent introductory course to gain medium-duty truck knowledge. Course II is available in make specific versions as well as a General course ideal for fleet/leasing/purchasing personnel.

**COURSE III** **Heavy Duty Models.** Class 8 trucks and tractors are a challenge in application/selection—Course III provides training to meet that challenge. A favorite with factory sales & engineering personnel. Peterbilt personnel should use Peterbilt product information to specialize in the make. Those in purchasing/leasing should specify the General course.

**COURSE IV** **Mid-Range Diesels.** Class 5-6-7 diesel market is the focus in Course IV. The 354 page textbook covers the latest in engine and drivetrain technologies. Great follow-up to Course II, ideal for anyone selling or purchasing these vehicles.

**LT-2 COURSE** **LT-2: Light Truck Essentials.** Provides advanced training, ideal for Class 1-5 commercial and fleet work. General version for fleet/leasing/purchasing personnel. Make specific versions for Ford, Chevrolet, or GMC focused sales and purchasing.

## Enroll Today!

Truck professionals start with enrollment in TMI courses! Use the enrollment application, or call our Registrar **toll free at (800) 447-1251**; Fax (805) 684-2868. If outside the U.S. or Canada call us at (805) 684-4558.

City _____	Sponsor's Name and Title (please print) _____	Sponsor's Email _____
State/Zip Code (Province/Mail Code) _____	Telephone _____	Sponsor's Signature and Date _____

**Enrollment Agreement**

**PREREQUISITES.** Sponsor affirms that enrollee has a functional knowledge of English and arithmetic. Enrollment is intended for purposes of professional improvement.

**TUITION.** Includes a registration fee of US\$80 for LT-2 and Course I; US\$120 for Courses II, III and IV plus any TMI furnished textbook(s), California sales tax, grading services, revisions during the enrollment term, two-way postage for US and Canada enrollments and proof of successful completion for each qualified graduate.

**PAYMENT.** Tuition is payable with application or within 30 days of invoicing, or this agreement will be nullified and students disenrolled. TMI is not part of any tuition agreement between sponsor and named student.

**TEXTBOOKS.** Textbooks are for named student only. Unauthorized reproduction or reuse of the materials in any manner is prohibited.

**TRANSFERS.** Active status enrollment may be transferred with a charge based on the current tuition minus credits for unused exam services and the original textbook (if retained by sponsor).

**ENROLLMENT TERM.** Enrollment term is six months for LT-2 and Course I. Twelve months for Courses II, III and IV.

**INACTIVE STATUS.** Expired enrollments become inactive, but may be reactivated at no charge upon receipt of next exam.

**EXPIRATION.** Expiration notice will be sent to the sponsor prior to the end of the enrollment term. Course may then be extended, put on inactive status, transferred or held open for transfer to another employee.

**CANCELLATION.** Thirty calendar days or less after this application is signed, the enrollment may be cancelled and no tuition will be charged.

Beyond thirty calendar days after the application is signed (and before end of the enrollment term) the course may be cancelled and a refund requested. Refund is a percentage of refundable tuition and is based on the percentage of exams completed (see table below). Refundable tuition is the original tuition minus the registration fee.

Percentage of Exams Graded	Percentage of Refundable Tuition
None.....	100%
10% .....	90%
11 to 25%.....	75%
26 to 50%.....	50%
51% or more .....	None

**CONFIRMATION.** Party responsible for tuition payment will receive a copy of the accepted Enrollment Application.
